5, How to use RBW005A

Step1:Strips to be connected

Step2:Use two C-S-D-8 to connect the strips and the using way is the same as above

Finish

Cautions:

- 1,While connecting the strips,ensure the positive and negative connections are correct.
- 2,Please open the slot gently to prevent the slot pulled off.
- 3,While using C-RGB-S-10/C-RGB-D-10,please cut off a small fraction of strips at the PAD where you want to connect.This ensures the strips' smooth insertion.
